The ultimate goal of this final care ministry is achieved by extending comfort and education to bereaved families as they witness the transition of their loved ones from earth to eternity.

The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. Disclosure

(1) *Dangerous Diseases*

It is our company policy not to embalm, cremate or allow viewing of any body known or suspected to have Creutzfeldt-Jakob Disease. Neither embalming nor cremation will kill this deadly disease. Smallpox is another deadly disease and is highly contagious. Therefore any body with smallpox will not be embalmed or allowed viewing in order to protect public health and the spread of the disease.

(2) *ID Viewing*

It is our company policy that when a body has been autopsied, and an ID viewing is requested, the body must be embalmed. Due to the invasive nature of an autopsy, there is no way to control the leakage of bodily fluids and blood, which present a public health hazard to those family members and our staff outside the preparation area. In addition, any body with a contagious disease must be embalmed for a family ID viewing.

Number 2 listed above also apply to organ donation.

Note: In order to comply with OSHA guidelines for a safe working environment these are necessary restrictions.
