ME

“ *Bonnie, you’ve always been so sweet and lovely toward me.. especially even though I was a bratty kid. I’m glad I told you that I remember that. The old saying is true, people may not remember what you say but they remember how you made them feel. And you were always so nice to me and I love you so much for that. Your sickness and death has broken my heart. I’m so sorry you were so sick and if I could make one wish I would want to take it from you and give it to me. I felt your presence shortly before you passed and I was so upset. I’m glad you are no longer suffering or in pain and I wish you everlasting peace and love.* ”

RM

“ I will surely miss my big sister. She has been a true and humble servant to the LORD, she always prayed about all things, and reminded my how to pray again when I had forgotten. She did much with little. Now she is at peace with no worries. She has been a great influence on me most all of my life. I love you Bonnie.
