

Dr. Dionne Lynnette Price

August 29, 1971 - February 22, 2024

February 22, 2024, Dionne Lynnette Price, 52, of Silver Spring, Maryland passed away peacefully at her home with family at her side.

Dionne was born on August 29th, 1971, to Harold and Vivian Price in Portsmouth Virginia. She lived an extraordinary life that would take her from humble beginnings in her Cavalier Manor neighborhood to destinations around the world.

Dionne excelled at every level of her education. She attended Portsmouth Public Schools and graduated from Manor High School as valedictorian in 1989. Dionne went on to attend her beloved Norfolk State University “NSU” where she majored in Math as part of the Dozoretz National Institute for Mathematics and Applied Sciences (DNIMAS) program. While attending NSU, Dionne had summer internships at National Aeronautics and Space Administration (NASA), Massachusetts Institute of Technology (M.I.T.), and the National Institute of Health (NIH). Dionne graduated from Norfolk State University as valedictorian in 1993 with a Bachelor of Science degree in Mathematics. She received her Master of Science degree in Biostatistics in 1995 at the University of North Carolina Chapel Hill. Dionne became the first African American to receive a PhD in Biostatistics from Emory University in 2001.

Dionne's experience at NIH, where she worked closely with biostatisticians analyzing data from individuals living with epilepsy, played a pivotal role in shaping her career choices. Dionne's decision to work at the Food and Drug Administration (FDA) as a statistician was driven by her desire to combine her love of teaching, her aspiration to apply her skills to real world problems, and her unwavering determination to create meaningful impact in the lives of others. When asked what she did at the FDA Dionne explained it best, "I generally answer that I am a biostatistician at the FDA, and I often get a curious stare. I then go on to say I am a part of a team of incredible scientists whose daily job is to ensure the safety and efficacy of drugs and biologics". During her time at the FDA Dionne was most proud of the work she performed as part of the FDA's response to the COVID 19 pandemic. She was vital to this effort, working countless days and nights to ensure the safety and efficacy of drugs and vaccines. Dionne also had a passion for mentoring and teaching and taught classes at the FDA, Trinity University, and Georgetown University. Dionne had an impactful 22-year career at the FDA and held the position of Deputy Director of the Office of Biostatistics in the Office of Translational Sciences, Center for Drug Evaluation and Research at the time of her passing.

Dionne was an impactful leader and became President of the American Statistical Association (ASA) in 2023. She was the first African American to hold the position. As president of ASA, Dionne believed leadership was about solving problems and from her perspective, statisticians and data scientists use data to solve problems and thus, were all leaders. She enjoyed working with a community of leaders to meet the needs of the ASA members and advance the profession.

Dionne's love for education and her profession was exceeded by her love for the Lord. From her early upbringing in New Bethel Baptist Church where Dionne accepted the Lord, to her membership at People's Community Baptist

Church and later Church of the Redeemer, Dionne faithfully served. She particularly enjoyed her service as an usher, which allowed her to engage with the congregation. Her church family was truly family to her as evidenced by the lasting relationships she formed.

What provided Dionne the most joy however was spending time with her friends and family. Whether it was spending time with her sorority sisters of Delta Sigma Theta Inc. or going on girls' trips, she loved spending time with her friends and family. Whenever a friend came to town, she was good for a bite to eat and good conversation.

Dionne shared a special relationship with her brother, who she affectionately referred to as "Son". The two would share laughs about childhood memories, discuss politics and world events, and end the conversation talking about an episode of A Different World, one of her favorite shows. During her illness she would often say "Son thank you for what you are doing" and his reply would be "You would do the same for me".

Dionne was humble and lived by the words "honor your mother and father". Among the numerous prestigious award ceremonies and speaking engagements she attended internationally, the ones that meant the most to her, were the ones where her Mom and Dad were present. When you asked her about her activities from the previous year, she would enthusiastically share stories about her trip with Mom and Dad and her niece to Myrtle Beach and the special times with her family. Her joy was seeing the joy of others.

Dionne is survived by her parents Harold and Vivian Bradby Price, her brother Rodney Price (Tia), her nieces Laila, Morgan, and Jordyn, her Grandmother Ruby Price, and a host of other family members including aunts, uncles, and cousins.

“ *On behalf of Norfolk State University, we extend our deepest condolences to the family and friends of Dr. Dionne Lynnette Price. Dionne was a shining example of excellence, leadership, and dedication. Her remarkable achievements in biostatistics and her impactful career at the FDA have left an indelible mark on our community and beyond.*

Dionne's legacy of perseverance, passion for education, and commitment to making a difference will continue to inspire future generations. We are immensely proud to have been a part of her journey and will forever honor her memory.

“ *To the family of Dionne, I would like to extend my deepest sympathy. My heart is saddened by this news. Dionne and I were at UNC together and both Packard Scholars. She had an amazing way of lighting every room with her beautiful smile, warm spirit, and wit. Dionne may be gone from this earth, but I am thankful for the memories that I have of her. I will cherish them forever.*

“ *Dionne, our esteemed director of the Division of Biometric IV who served the division from 2013-2021, was dear to the division members. She set example of hard work, dedication, and commitment. Her tireless efforts and love for her work were evident, setting a standard of excellence that few could match. Throughout the tumultuous period of the COVID-19 pandemic, Dionne epitomized the role of a captain, steering the division through uncharted waters with unwavering resolve. Her calm demeanor and her handling of emotional stress served as a beacon, sustaining the morale of the division, and inspiring each of us to confront the unprecedented challenges head-on. Under Dionne's leadership, the division achieved remarkable milestones, including the swift review of all COVID-related submissions, setting record turnaround times, and spearheading the development of effective treatments that reached millions of people worldwide. Beyond her professional accomplishments, Dionne's presence brought warmth and light to the division, filling our days with sunny moments that will be cherished forever. While her physical presence may be gone, her remarkable legacy will endure in the hearts of division members.*

“ *Dear Dionne,*

We count ourselves among the fortunate ones whose lives you've gracefully touched with your warmth and kindness. Reflecting on the years we were blessed to share with you at the FDA, it's your unwavering calmness and kindness that stand out the most. You transformed our workplace into a sanctuary of warmth and humanity, making each day brighter and each challenge softer.

Your spirit, beloved and profoundly missed, has left an indelible mark on our lives. The memory of your smile, so genuine and uplifting, will forever accompany us through the hallways of Building 21, reminding us of the joy and serenity you brought into our lives. Your legacy of kindness and compassion continues to inspire us, guiding us to carry forward the same light you so effortlessly shared.

With deepest admiration and remembrance,

“ Harold, Vivian, and Rodney, my heart goes out to each of you! I cannot fully fathom the depth of your grief. For, mine own spirit is heavy with the loss of Dee. But, we must take comfort in knowing that Death has no dominion over those who love the Lord. Dee knew and loved the Lord, and He surely knew and loved her, as evidenced by the many accomplishments He saw fit for her to amass. Take comfort, Family, in knowing that Dee is at peace. There is no more sickness and no more pain! She is now at rest with our Lord and Saviour Jesus Christ. She has exchanged mortality for immortality! Peace, oh Peace, be still!
I love you all!

“ I have a very vivid memory of meeting Dionne in my first semester at NSU. I remember meeting her in the Math department office and noticed how funny and warm she was. She made me feel welcome as a new student. I believe she could sense my uneasiness, (with being new to the program), so she took time to chat with me which really meant a lot.

Speaking to other brothers who were in the DNIMAS program, I can see we were all fortunate to have a connection with someone that had so much energy, cared for so many and had such a profound impact on our world. We share our condolences with the family and would like for you to know that Dionne has not only had positively impacted people she touched, but her legacy will also have a positive impact to future generations.

“ I am deeply sorry to hear about the passing of my former Norfolk State University mathematics/statistics student, Dr. Dionne Lynnette Price. She was an excellent student. She was very conscientious and hard working. She was one of my top students. She always worked diligently on classwork and homework and made top grades on tests and quizzes. I am honored to have taught her. I'm happy to know that all of her hard work, as a student, paid off, with leadership positions, at the United States Food and Drug Administration (Division Director in the Office of Biostatistics) and the American Statistical Association (President). Not only was she smart, but she was also kind and compassionate. Well-done young lady, you've made the City of Portsmouth, Norfolk State University, the State of Virginia, the United States of America, and the world, proud. (Dr. Archie W. Earl, Sr., Former Mathematics/Statistics Professor, Department of Mathematics, Norfolk State University)

“ *Mr. and Mrs. Price, Rodney and family. I am at a loss for words. However, I am reassured that Dee Dee has entered heaven with that big beautiful smile of hers. She was such a beautiful young lady inside and out. My prayers, as you go through this process, is that you find strength and peace with each day ahead. Thinking of you. Sharon Williams-Mack/Soror/NBBC*

“ Dionne radiated her brilliance and wisdom when she taught. I feel fortunate to have witnessed her shine at the podium and make the complexity of numbers so accessible, if only for a few classes at the FDA. Even in those brief encounters, her defining qualities shared by friends—grace, poise, dignity, kind-heartedness, authenticity, fairness—came to the forefront of her words. May all who knew Dionne find serenity and solace in her enduring resplendence.

“ To Dionne’s family, I am so sorry. Dionne and I were in several women’s Bible studies at Church of the Redeemer. She was beautiful both inside and out . . Always shining for the Lord. What a joy that Jesus held her hand and walked her to the Promised Land. Even though we know we will see her again, grief on earth is hard. Lifting you all in prayer for His peace and comfort. ~ Cindy Matter

“ Dionne, you are the spirit of the Light in Matthew 5:16. Your light shined all the time with grace, poise and dignity. You are a character in the film, "Hidden Figures" as an exemplar of barrier busting. A "Candle in the Wind" gone too soon. A Blessing who's memory will resonate because you let your little Light shine. We were witnessed what happens when America lives up to its creed. Thank you Dionne's beloved family for giving us your daughter! Philip Orticke

“ I had the fortunate opportunity to work with Dionne briefly while I was in FDA/CDER/OTS. She was beautiful inside and out, so humble and supportive, such a kind heart. She had crossed my mind over the last several months and I regret not reaching out. She lived her life with grace and dignity, and I trust she has had an incredible homegoing. I celebrate her life and my prayers are with those who loved her and cherished her most. ~ AB Stuart
