“ *My Uncle Marty was my Fathers younger brother. They shared interests in Finance and investments and frequently got together for family gatherings over the years. After he moved back to Virginia he lived at our Farm at Lake Anna Virginia where he worked on his financial newsletter and performed soil testing and test crops for our greenhouses. He enjoyed the outdoors and was interested in civil war history and history in Virginia. Despite his profound hearing loss, we had many interesting discussions over the years. Uncle, you will be missed here on earth but your presence will always be in my thoughts and actions and passed along to my 2 sons as they grow up so they know about our Family history.*
