DR

“Dad I miss you so much. 14 years talking no less than 4 times a day. I know you are with God and finally free of pain and being alone. It is just hard thinking that you will NOT be calling to say your taking your meds or going down to eat or watching Golf Football or a game show. Oh and always called to say GOOD MORNING AND SAY GOODNIGHT. I wish I could have held your hand and told you I LOVED YOU just one more time. LOVE YOU DEBBIE
