“ Jody was my dearest friend in the world. I first met her in 1999, and she had that special sparkle that captivated me quickly. She at the time was married to my coworker at the Post Office. When he moved to California she stayed and the two of us became very close. We traveled to N.Y. and met my family and my mom and Jody developed a strong bond. Every once you meet someone you know you were meant to share something special with. For me Jody was and will always be that person...The hurt I'm feeling now, words can't describe. I miss her deeply...God Bless your new angel....
