“ Dear Aunt Snooky,

*I can remember from early on our summers visiting you at Grandma's house in Portsmouth. I remember frequent runs to the store, trips to water parks and the beach, and great food with better company back at the house. I loved your stories and your laughter. You were always so funny and lively. Just hearing your voice from down the hall would put a smile on my face. Like Dad said, you were a great dancer and always seemed "hip" no matter the trend at the time.*

*It's hard to believe you've moved on and I miss you so much already. The day I found out, I walked around the yard listening to the birds and marveling at all the flowers in bloom. I picked my favorites and gathered them in a vase to keep in the kitchen window. I felt you there with me when I did it.*

*I love you more than I think you ever realized and I will always smile when I have memories of you.*

*Love,  
Vicki*

“ *My sweet Snooky.*

*You have earned your rest. You took care of me and brought me home with you when mom had to help Aunt Molly. You taught me to dance the latest dances so I could go to the school sock hops. I always liked to watch you and cousin Johnnie hand dancing on the dance floor. You guys were so cool. Snooky you raised all of us and took care of Mom and Dad when they needed you. I think of you and your straw hat as the sign of spring, planting flowers in the garden, front and back of the house.*

*I will always love you big sister.*

*Victor*
