“ We just learned today that our Terry our favorite Pest Guy for many years has passed away. As I told each member of our family everybody had a different reaction and we hope that his passing will not go unnoticed as he was a wonderful man . When he came to our home it was always about our dog and him always asking how we were doing. After he told us of his illness, like others I would send him home with treats or maybe a quick dinner . Blessings to you and your family and please know that even though he entered our lives on a limited basis, he was very special to us. Blessings, Myatt Family

“ Today we learned of your brothers passing. He serviced our hse with Pest Control for many years. He was always so pleasant. He loved his dog and his garden. One summer he shared some unusual tomatoes he'd grown. Last time he was here maybe a month ago, he wasn't feeling so well. He sat down and chatted with us...and we sent him home with some homemade banana bread. So sorry for your loss.
