“ Victor was the only boy in my household, from the age of six until he became an adult. Mischievous but humorous and lovable. Very smart but didn't feel that education was necessary. My girls said that he was spoiled rotten because he got his way more time than not. My name was Ma, when he became a man he change my name to OG. I loved him and we communicate often. My condolences to the Driver Family and to Thea Wilson. When he wasn't with me he was spending time with his aunt Thea or at his Aunt Terry's home. He will be missed not only by my family and friends but also by those that loved him as I did. R.I.P Victor. We love you, but GOD loved you best.
